SQUARE CARD
TEMPLATE

BLEED AREA: To avoid white edges when trimming, extend just the background to the full bleed area.

TRIM AREA: The area we aim to cut at.

SAFE AREA: Keep all important data such as texts and logos inside the safe area. If there is anything outside, it will be at risk of getting cut off.

Please outline all your text and make sure all images are embeded before submitting. When submitting in PDF, please include bleed and crop marks.

Have questions? E-mail us at design@lifeincolors.com and our designers will be able to help.
